

EVEN ONE Life Care Specialist Can Make a Difference

Our LCS team members provide an extra layer of support for patients and hospital staff by providing education, mental wellness support, and personalized pain management strategies to help prevent opioid misuse before it begins.

An Integrated Member of Your Healthcare Team

- Our LCS Specialists provide opioid and Narcan safety education.
- Your LCS will be a listening ear in times of pain or hardship.
- Your LCS will teach you non-pharmacological pain management techniques.
- Learn evidence-based skills to help patients manage stress, PTSD, and more.

Providing Meaningful Support to Patients and Caregivers

- Our LCS members craft tailored pain management plans for every patient.
- Guide patients through relaxation techniques that manage anxiety and stress.
- Offer sleep coaching and music therapy to your patients.
